PROJECT PLANNING PHASE

Milestones & Activity List

Date	7 November 2022
Team ID	PNT2022TMlD43551
Project Name	Analytics for Hospitals' Health-Care Data

MILESTONES	ACTIVITY LIST
MILESTONES-1	Collecting the data based on the application
MILESTONES-2	Uploading the collected data on the IBM COGNOS platform
MILESTONES-3	Data exploration in the IBM COGNOS platform
MILESTONES-4	Data visualization in the IBM COGNOS platform
MILESTONES-5	Creating an interactive dashboard
MILESTONES-6	Displaying the prepared dashboard
MILESTONES-7	Preparing a standard dataset and removing the unwanted data using the python programming
MILESTONES-8	By using the various algorithm and exploring the result and getting the accurate result with the help of an algorithm which give more accuracy
MILESTONES-9	Displaying the result according to the required format for example displaying the Length of Stay of a patient
MILESTONES-10	Deployed in the GitHub
